

CARGO FOLD 700

Cargo Fold 700, the first cargopallet with collapsible walls and available on wheels, is even more flexible and ready to meet transport and storage requirements. The special white polyamide wheels, fastened to the base of the Cargo Fold, include special galvanized steel cross bars to ensure hold and stability of the load; moreover they allow use with heavy duty loads up to 600 Kg.

The new **Cargo Fold 700** is completely folding. With this system, in case of transport and storage of empty containers, **you shall earn 63% in volume: a stack of eight folded Cargo is the same height as three open ones**. The overlap of Cargo Fold 700 is secured by 4 cylinder/spherical pins obtained directly from the mold on top of the container that fit into appropriate seats machined at the bottom of the legs/runners of container. The 35 mm recessed ensure maximum safety and stability of the overlap.

Available in HDPE, PP or RPP, both very resilient and sturdy. No metal inserts at all, Cargo Fold is completely recyclable. Feet, hinges and locking mechanism in black colour are immediately visible, and appear very nice with the grey walls and base. The Cargo, completely dismountable, allows the replacement of eventually damaged parts. Every wall can be fitted with card holder for an immediate identification of the content and can be personalized with the company logo. Also available with folding door.

Capacity max: 650 dm³ - Max loading capacity: 200 - Maximum charge in piling: 800 kg

ARTICLE	SIZES mm		
	A	B	H
CARGO FOLD 700 with 4 feet	external 1200	1000	847
CARGO FOLD 700 with 4 wheels	external 1220	1000	854
	internal 1120	920	654
Gap between feet	830	800	120 (H ₁)
Forking gap with feet			
Wheelbase between the 2 cylinder/spherical pins	1120	920	
Stacking recess	35		
Dimensions of folding door	782 x 40 x h326		
Height of 8 Cargo folded	2675		
Height of 7 Cargo folded	2345		
Height of 3 Cargo open	2471		
Height of Cargo folded	365		

CARGO FOLD 700 WITH RUNNERS

Cargo Fold 700 with runners is completely folding. With this system, in case of transport and storage of empty containers, **you shall earn 63% in volume: a stack of eight folded Cargo is the same height as three open ones.**

The overlap of Cargo Fold 700 is secured by 4 cylinder/spherical pins obtained directly from the mold on top of the container that fit into appropriate seats machined at the bottom of the legs/runners of container. The 35 mm recessed ensure maximum safety and stability of the overlap.

Available in HDPE, PP or RPP, both very resilient and sturdy. No metal inserts at all, Cargo Fold is completely recyclable. Runners, hinges and locking mechanism in black colour are immediately visible, and appear very nice with the grey walls and base. The Cargo, completely dismountable, allows the replacement of eventually damaged parts. Every wall can be fitted with card holder for an immediate identification of the content and can be personalized with the company logo. Also available with folding door.
