

# CONTAINERS DELTA MEC 600x400

56/IIP - IPPR 935

The **DELTA MEC 600x400** are shockproof containers immune to chemical agents. They can be placed by 4 or by 5 on 800x1200 or 1000x1200 pallets respectively and optimise the internal space thanks to the vertical walls. Stackable and with open or closed handles, they are recommended for pharmaceuticals or small metal products and are also available in non-toxic materials for foodstuffs or in conductive material for electronic components.

Colours: containers: gray ATX, gray IND or blue DET - lids: black  
 Accessories: lid that sits on or slides and sealable sliding, lid with integrated hinges, fastening system for lids; trolley, made of non-toxic material for food - card holder for Delta Mec from 12 to 32 - box - separators and combs dividers
