

EPSILON GRILLED

The modular Epsilon grating is insulating and easy to lay, thanks to the system hooking all various elements one to another. It enables the creation of antislip flooring in all sizes. Rated operational voltage 3 kV. Epsilon comes complete with a side and corner joint for even more functional floor paving.

- Material: - polyethylene or polypropylene, inert to acids and solvents.
- Colours: - epsilon: light brown, black, black PP, green, neutral, red, blue
- peripheric ramp: black
- Accessories: - peripheric ramp side male clutch and female clutch, corner
